Summary

Hi! I have five years of experience as a software engineer building software. I have found great fulfillment in my career as a software developer, and I am grateful for the opportunities it has provided me. I have a great passion for Learning & Development (L & D), and I drive to help my community of developers to learn and gain the best experience of learning. I am a
- Solution-focused Software Engineer with experience in the complete
Software Development life cycle.
- Expertise in planning, developing, and executing test cases and software
improvement methodologies to offer quick corrective actions/roadmaps to
help save 10% on business expenses.
- Hands-on technology professional committed to providing exceptional User
experience, Client satisfaction, team collaboration, and also performance
optimization.
- High-level Proficiency with Reactjs, Vue.js, Nextjs, Nodejs, Mongodb, Sql, Flutter, bug
reporting/tracking tools, and a solid understanding of programming
languages.
- Versatile Developer with a commitment to producing high-quality work and winning over clients. I can
successfully manage myself when working on solitary projects and working with others in a team environment.

Experience

Software Engineer
The Bulb Africa
Sep 2022 - Present (8 months)
Fullstack Software Engineer, and Mobile Engineer.
- Developed a bulk payment web application that successfully processed over 2000 user payment requests.
- Conducted thorough testing and debugging processes to ensure a high level of quality and reliability, fixing
- numerous bugs in an existing codebase, resulting in a 50% more stable and performant application.
- Setup a CI/CD pipelane for creating Flutter builds resulting into 20% more outputs than manual

Full Stack Engineer Facilitator
The Bulb Africa
Mar 2023 - Present (2 months)

Frontend Engineer
The Bulb Africa
Feb 2023 - Present (3 months)

- Created a reusable React hook that helps to make API calls, this increased each component's performance by 20% while this remained maintainable and readable.
- Implemented smooth transitions & animations with Framer Motion & CSS Transition Group which led to 30% user attracting interfaces.

Mobile Engineer
Feedpay
Jan 2023 - Present (4 months)
https://feedpay.co/

Backend Lead
Frixxapp
Mar 2022 - Present (1 year 2 months)
- Extensively Made use of Node.js, Express.js, Mongoose, NodeMailer, JWT, Bcrypt, Cloudinary, Kafka, Pusher, and Swagger Ui with Clean architecture to build backend servers & microservices
- lead 2 backend developers during a 20-day code sprint.
- Built the main waitlist app, that handles 200+ requests a month
- implemented an email templating feature into our main servers.

Lead Software Engineer
Texxalabs Technology
Jan 2022 - Present (1 year 4 months)

Mobile Developer
Fiverr
Oct 2018 - Present (4 years 7 months)
- Built 10 profitable Mobile apps utilizing Flutter, Nodejs & Firebase, with $100,000+ revenue
- Implemented Bug Fixes to a dating app that led to a 40% increase in traffic.
- Designed and implemented a new feature that increased user engagement by 20% and reduced bounce rates by 15%.
- developed numerous UI kits for clients which increases my productivity by 30%

Full-stack Developer
Fiverr
Feb 2021 - Present (2 years 3 months)
- Built 50+ successful web apps, that had over 2000 users with MERN Stack tech
- Utilized industry-standard back-end technologies such as Node.js and MongoDB to create scalable and efficient server-side applications, resulting in faster load times and improved performance
- Implemented responsiveness in a very complex structured web app, which lead to a 20% increase of mobile-based web users

Fullstack Engineer & Facilitator
Dervac
Jan 2023 - Apr 2023 (4 months)

- Impacted my students learning efficiency by 20%
- Trained 20+ students about Full stack Engineering and how to impact the world with their skills
- Delivered inspiring speeches to motivate and encourage trainees in their careers.
- Conducted thorough testing and debugging processes to deliver stable and performant software products that helped to drive business 30% growth and success.

Education

ALX
Computer Software Engineering
Apr 2023 - Present

Licenses & Certifications

Javascript - HackerRank
